A destitute wayferer was found at an early hour yesterday morning fast asleep in a car at the motor barns. G. F. Chase, one of the employes of the motor company, ran across him and tried to rouse him, but the sleeper refused to filew his possessio of the impromptu hotel to be interfered with. He was accordingly hunded over to Officer Covalt and taken to the police station, where he was charged with trespass.

When wenk, wenry and worn out, Hood's Sarsaparilla is just the medicine to restore your strength and give you a good appetite.

Does it Pay You?

Does it pay anybody to give more than an article is worth just because you want to please somebody? It cer-tainly does pay you to give twice or three times as much for school shoes for your children as we offer them to

We can give you a pretty good strong pair of children's shoes for 25c, good enough for any boy or girl to wear to

For 35c and 45c we give you a better grade than you have been asked \$1 for. And for 50c to 75c we can give you footwear that the hardest kicking boy or girl cannot kick out during the present school term.

Fathers and mothers of Council Bluffs and vicinity who want their children neatly and comfortably shod will find it pays to look through our stock.

We have school shoes enough for every school chi d in the city, and we want to furnish them at one-third what other dealers are asking. Saturday and Monday we are going to make a little run on school shoes, and at the same time we will sell all other shoes at corresponding prices.

A bankrupt excuse for a morning paper,

with a name that is a broad caricatore, has commenced again an effort it has been mak-ing regularly for the past tweive years to run The Ber out of Council Bluffs. It once had some character and prestige, but for the past few years it has never risen above the plane of soil-confessed mendacancy. While posing as the sole and exclusive defender and advocate of Council bluffs interests it is neither printed nor edited in this city. Sixty per cent of the reading matter it contains is set up to Omaba and formished forty-second hand at one-tenth cost of fresh type. While abusing Council Bluffs people for trading in Omaha it never prints an i-sue that does not contain big advertecements of Omaba merchants and double-leaded editorials urging its few readers to patronize them. It is a carienture in all respects, and has seen the cause of more ridicule of the city than any other set up in Omaha and furnished forty-second of more ridicule of the city than any other one thing. It only has a few readers, and they do not take it for any purposes of a newspaper, but only because they are old citizens and it was once a newspaper. They contribute weekly to it just as they willingly contribute to keep the grass green on the graves of their friends, paying for an ancient

memory not a present utility.

The Brz will continue to furnish the rews to the people of Council Bluffs, and pay out nore money for sularies and expenses than the little country sheet makes, and every dollar of this will find its way into the tills of the Council Bluffs merchants.

Enturnalia of Politics Promised the People for This Week.

H. GARLAND AND W. C. WARNER COMING

Democrats and People's Partyles to Have Great Raines-Prospects for the Demoeratic Convention - Republicans Will Caucus on Saturday.

The present week promises to be a lively one so far as politics are concerned. To say nothing of the quiet electroneering that is peing done on all sides by the candidates of all parties, a number of political meetings of various kinds are booked, and every one wno is interested in politics may find something to his taste if he looks for it. This evening the people's party will open the ball by holding a caucus to select delegates to attend the county convention which is to be held on Saturday at the county court house.

Wednesday evening will be notable by reason of there being two political spaceches. Hamlin Garland, the well known writer, is to address a meeting at the opera house in the interests of the people's party. Mr. Garland has been brought prominently before the public through his writings for the magagines, as well as a number of novers from his pen and there are doubtless many who will be anxious to hear him. In the Masonic Temple on the same evening the democrats have a counter-attraction in the shape of an address by Hon. W. U. Warner of New York

on the subject of tariff reform.

Thursday occurs the democratic convention. As the time approaches the interest felt in the result is increasing, and the candi-dates that are clamoring for a chance to get the various offices are becoming thick and vociferous. The number of offices to be filled is not large but the convention which meets n Thursday will have some difficulty in selecting the candidates from the many names to be presented. The convention will have to name candidates for county recorder, county auditor, clerk of the district court, supervisors. Not only because it is the most important office, but because they fear the republican nominees in a presidential year, nearly all the unxiety is felt for the nominee for recorder, and it will be over the name of his candidate that the chief fight in the convention will occur. The strongest candidate mentioned so far is generally conceded to be Sam D. Robrer, brother of the ex-mayor, and it now looks as if he will be the first man

For auditor ira Hendricks will endeavor to work the convention, and Clerk Campbell and County Attorney Organ will do the same for re-election. Organ vill have a powerful opponent in Thomas E. Casady, the law partner of Finley Burke and one of the brightest young men in the city. Judge Aylesworth has also entered the race.

Supervisor Graham announces that he is not a candidate for re-election, and now no-body up to the present time wants the office badly enough to begin working for it. Saturday high: the republicans will hold caucules in the wards to choose delegates to the county convention, which meets at the court house a week from next. Wednesday, On the same evening there will be a people's party rally at which speeches will be made by F. W. Meiers, candidate for coagress, and Charles McKenzie, candidate for attorney general

Too Much lee Cream. H. C. Rohrer, agent of the Missouri Pacific rallway, New H aven, Mo., says: "I suffered a great deal one hot evening last week. (July 21.) had eaten see cream for supper, and thereseemed to be an internal conflict going A traveling man said he had something in his grip at the bote, that he believed would relieve me, and producing a small bottle of medicine gave me a dose. I felt better, and in a few moments took another dose, which entirely relieves me, I believe that such a medicine is worthy of recommendation and that it should be kept in the house during the summer. The bottle was labeled Chamberlain's Colic. Cholera and Diarrnœi Remedy." For sale by druggists.

Told the Truth. The truth stands best is an old remark, and never was it more verified that it had for the past few weeks in Council Bluffs. Ever since the first arrival of fall goods the Boston Store has been advertising special sale in various departments. The wonderful success they have had is a sure guarantee that they have told the truth and

nothing but the truth. We always have what is advertised. and you are sure to find it just as represented. The sale for the coming week is dress goods, and we call your attention to show window displays, beside a large variety of bargains in this de-partment. We are showing new fall

novelties all over our store. Window No. 1-Shows a line of out-ings in mixed, checked and plaid novelties, same goods retail at 50c a yard, 66 in, wide and warranted all wool; we offer same during sale at 33c per yard.

Window No. 2-Shows a better grade f goods, representing some of the finest aropean productions, in French, Austrian and German manufacture, as well as some exclusive dress patterns in the latest weaves and effects, ranging in price from \$6.00 to \$15.00 each.

Window No. 3-Shows an entirely different line. It is composed of black goods and black and white, among which are some bargains. We call your attention to our 42 inch cashmere at 39c. worth 50c. Perhaps the greatest bargain ever offered by us, or any other merchants, is our 46-inch Austrian henrietta (all wool), regular 75c grade, at

Billy Madden Missing. Billy Madden, the proprietor of the Pacific house, is missing, so it is claimed by his friends. The fact was reported to the police yesterday afternoon by a woman with whom he has been living for some time past on avenue A, near the Northwestern depot, who said that she had not seen Madden since 12 o'clock Saturday night. He did not show up at his saloon yesterday morning nor all day. Officer Beswick, who investigated the case some-what yesterday, stated that he saw Madden Saturday night about midnight, and that he was on his way toward the Northwestern depot in company with a man whom the orficer did not recognize.

Procure ReforeLeaving Home. Three years a zo, while I was visiting relatives at Higginsville, M.s., I was suddenly taken with colic and severe pains in the stomach. My relatives sent to the doctor for medicine, and he sent me a bottle of Chamber and Colic, Cholera and Diarrhoea Remedy, telling the pearer that if that med icine did not cure me he could not prescribe anything that would. I used it and was immediately relieved .- HENRY A. THOFERN.

September 21. Broke Jail at Marshalltown. Sheriff Hazen received a telegram from the sheriff at Marshalltown on Friday notifying him of the escape of Charles Turodell, one of the prisoners who had been confined in the county juil at that place, and asking him to look out for the fugitive, as he road, was supposed to have come this way. A man answering the description ran across

the path of Deputy Sheriff O'Brien Friday afternoon, but managed to clude the officer by hiding in a forest of sunflowers on the bottoms. O'Brien determined to hunt for his man in Omaha, and ran him down Satur day night, sithough the one he finally caught turned out to be a different one from the one he had at first spotted. The Marshallown sheriff was notified of the capture and he arrived in the Biuffs yesterday. Turned. dell agreed to go back without a requisition, and the officer took him back last evening. Turndell was in jall for robbery and made his escape by sliding down from the second story on a rope which had been passed into

HAPPY HONDURAS.

Land of Manana and Quien Sabe, Where No One Ever Husties, C. J. Bianchard of San Pedro, Honduras,

a former resident of Council Bluffs, is in the city visiting relatives and friends. Mr. Blanchard is arranging for the cultivation of cocoa and coffee and is enthusiastic about the country, the climate and the opportunities for making money. Speaking of the voyage he save it is one of

the most delightful imaginable. It is made in four days, the ve-sel at nearly all times passing in sight of the coast. The first view of the tropics is one never to be forgotten. in Honduras the mountains are clad with forests clear to the summits, while in the forests clear to the summits, while in the vallers the vines and the trees and grasses grow in a chiprofusion that the eye cannot pengirate the thickets. In point of climate Henduras is one of the most favored spots on the globe, the temperature having a mean range of only 20 degrees in the year. In mineral wealth she easily ranks her sister republics. Silver is found on the Partice slope. republies. Silver is found on the Pacific slope and gold washings occur in many places Agriculturally, Hondaras is almost wholly unreveloped. Progress there, not only commercially but in everyother way, has been greatly retarded by lack of facilities for transportation. The covernment is offering some exceedingly valuable concessions to the milder of a good wagon road across the

In the highlands of the interior the nimate is uniform and healthful; Americans as well as the natives onjoy excellent health. Cholera, yellow fever and other malignant fevers never prevail there; flowers bloom always, the trees and grasses are ever green, while all about is perennial spring. Catarrh, bronchitis and consumption are unknown.

The oldest people in the world live there.
The native Henduranian is a slow-roing fellow with a large appetite for drink and an abnormally developed capacity for rest. Your native here never does anything today which he can postpone until "manana" of omorrow, and the schemes which he devise to win his point are often amusing. Spenking of morals, says Mr. Blanchard they are unknown judged from our stand are unknown, judged from our stand-Marriage is seidom solemnized between the natives, though the verbal con-tract entered into between the man and voman is generally carefully observed. The Cattolic church bere, as in all Central and South America, is the popular faith.

In the forests of Honduras are found manogany, rosewood. Spanish cedar, prima vera rupper and other valuable woods and dye woods. Coffee is being cultivated more and more each year and is making fortunes for the planters. A coffee plantation 5 years old cannot be purchased for less than \$600 to \$1000 per acre. Cacao from which our phocolate is extracted is being extensively cultivated. Vanilla, indigo, cotton, sugar every kind are wealth producers in this favored country. The government is making every effort to get agriculturists to settle there, especially Americans, and is offering

In point of revolutions Honduras has suffered less from this source than her sister Foreign residents are not molested by the insurgents and the battles there are usually fought at long range and are gen are usually loaght at long range and are gen-erally bloodless. One American behind an adobe wall in Comayagus a few years ago dispersed an army of insurgents by keeping a few Winchesters hot a short time, firing them in the sir. He was promoted to a posion above the police force the next day for

All in all Honduras offers advantages not to be equaled to young, active and industri cas Americans. A furniture manufactory, saw mills, stores and countless other indus-tries would succeed. French opera and snowballs must not be expected there and many have to be overcome, but the reward is certain for those who stay it out. Mr. Blanchurd will remain in the city several days before leaving for the south.

ANOTHER RAILROAD SCHEME.

Something About the Proposed Air Lin-

Across the Continent. DETROIT, Mich., Sept. 18 .- William Dallin of Chicago, vice president and general manager of the Atlantic & Pacific Construction company, who is in the city temporarily, gives an interesting account of an air sine railroad to be built between New York and San Francisco, which will be a shortening of the distance of over 800 miles and a proportionate saving of time. In an interview be

"Preliminary surveys bave been made and charters secured in Indians, Ohio and Penn sylvania in addition to the work already done in Indiana. We are now engaged in surveying the route through New Jersey. The grading for the road bed and laying rails will commence in 1893 and the road wil be completed and operation commenced in the year 1900. The cost of the division from New York to Chicago will be \$100,000,000, and of the Chicago San Francisco and \$600,

000,000. This includes everything. "Our main line will run within a few miles of Chicago and within fourteen miles of Cieveland. Instead of turning out to take in these cities, we will build tracks to con-nect them with the main line. The same olicy will be followed with other cities and

We calculate our road will pay for itself inside of six years. We would look for all the through and local business between New York and San Francisco, and we will get it without trouble. I figure that a dividend of 5 per cent a year, or \$15,000,000 a year, would be cleared. We will establish a \$200,000 plant at Benton Harbor, Mich., and there we will build engines, freight and passenger coaches, make rails, and in fact everything

ed in the construction and operation of the "The road will be built with English

When he was discovered dead the health officers were notified, as it was feared he might have cholers. Dr. Charles F. Rober's, chief of the bureau of contagious discases, went to the steamer, which is lying at the foot of West Twenty-third street, North river, and after making an ex-mination content the steamer, thoroughly amination, ordered the steamer thoroughl fumigated, and also cleared off the pier and quarantined those on the ship. The Nevada was not detained at quaran tine last Wednesday, having exhibited a clean bill of health.

How Canada Will Fight the Plague, TORONTO, Ont., Sept. 18 -At a conference etween the provincial Board of Health and the Outario government it was decided to nght cholers in Ontario by inspection, disinection and isciation, and not by attempted puarantine. Inspectors will be appointed at Fort Eric, Kingston, Suspension Bridge, Niagara, and at the latter station a disinfecting apparatus will be erected similar to that in use at Grosse island. In this way the gov-ernment hopes to keep out cholera without injury to business.

Mexico Taking Precautions.

TAMP:00, Mex., Sopt. 18.-Collector of Customs Martinez has received orders from the City of Mexico to close the port of Tam-pico against vessels from all cholers infected ports. None of the foreign consulates have been notified officially. Several vessels are enroute to Tampico from New York, Hamourg, Antwerp and Liverpool. Intense ex-stement prevails in official shipping circles. Jovernment officials state that in case cholera extends westward from New York a rigid quarantine will be established on the
